ADDITIONAL INFORMATION: / INFORMACIÓN ADICIONAL:

	CLASS 1 UNE ENV 12633.2003 ANTI-SLIP Test performed in a single production / Prueba realizada en una sola producción.
	Aesthetic classification: V.2 SLIGHT VARIATION Clasificación estética: V.2 PEQUEÑA VARIACIÓN
	In case of laying the wood tiles straight, do not exceed 1/4 of the total length of the tile. En el caso de colocación trabada no superar 1/4 de la longitud total de la pieza.
	We recommend using a minimum joint width of 3 mm. Never fit tiles without joints between them. Protecting the product during placement and appropriate cleaning after grouting and other work are part of a correct fitting process.
	For the MIMESIS series development, we have worked with the same tones as in the CORE and HARDY series, thus achieving the harmony between these 3 series and allowing numerous combinations adapted to the needs of each space.
